About Us

2012-2022 Yamhill County Transit is celebrating ten years of service, building on a long history of transportation innovation in Yamhill County.

Since the 1880's transportation has played a critical role in the local economy and improving the quality of people's lives. The exciting history of transportation in Yamhill County from steamboats to ferries, to the 109-mile Southern Pacific Red Electric rail line called the Yamhill Loop to the more traditional public transit services that began in the 1970's has built a strong

foundation for transit today.

In 2007, the transit district was formed. In 2012 Yamhill County Transit with Transdev as its contract service provider began providing public transportation services. Yamhill County Transit services include demand response, local fixed routes in McMinnville and Newberg and commuter services to West Salem, Grand Ronde, Hillsboro, and Tigard.

Watch for future 10th anniversary announcements and activities and please join the Celebration!

Subject: Sheridan Strategic Plan...

Laura,

I noticed some items in the Strategic Plan that I thought should be included. Heidi said I should run them by you before the Council takes any action.

On page 5 of the Strategic Plan, Goal 1, in the Recruiting New Business Metric, the second bullet has no reference to the Rotary. Also, the Sheridan Revitalization Movement is mis-identified as the "Downtown Revitalization Movement (SRM).

In the Incentivizing New Business Metric, the Sheridan Revitalization Movement is mis-identified again, this time as the "Downtown Revitalization Group". All of the group's paperwork is titled as the Sheridan Revitalization Group.

On page 6, the first 2026 Target is "History published". We have a 180-page document that covers the history of Stoney Mountain. I'm not sure what published means, but everyone on the Council received one, as well as Heidi and Yvonne.

On page 7, Goal 3, three bullets down in the Metric, "Publish Stoney Mountain History and progress". I think there should probably just be a "Progress" document because we already have the history.

Finally, I don't know where these should go, but I believe the Water Master Plan, the Sewer Master Plan, the Emergency Action Plan and the Forestry Plan for the Stoney Mountain area should all be included in the Strategic Plan. We can't take some actions until these plans are finished.

I apologize for these last-minute suggestions, but I believe they are important. I'm sorry I didn't get these to you much sooner. I caught them all last night while rereading the plan for what I expected to be the last time prior to the City Council passing it. Also, this was supposed to be sent earlier, but I got caught up in a couple of things and just now am able to send this to you.

Again, I apologize for the delay in getting these to you.

Sincerely,

Jim

Public Computers

CCRLS tech specialists installed four new public access computers Tuesday morning. Each one of our four computer stations now has a brand-new mini pc, monitor, keyboard, and mouse. These new computer set-ups were funded through CCRLS.

World Book Day

Come celebrate World Book Day at the Library! To celebrate, we patrons can participate in a fun little competition by guessing the number of books. The winner will receive a gift card to a local business.

Also, in honor of World Book Day, we will be starting our big book sale. We will have hundreds of items available for purchase (books, DVD's, CD's, puzzles, etc.). These items are all provided by the generous donations that the community have given the library. The sale will run from April 23 through April 27.

Interlibrary Loans (ILL)

Did you know that if you are looking for an item that is not available in the CCRLS catalog we may still be able to get that item for you? For patrons in good standing, we can put a request into Worldcat and see if any other library may have that item. Worldcat is the world's largest library catalog and connects thousands of libraries' collections in one place. We have received items from as far away as Kentucky to as close as Washington County. Requests may take a little longer to fill than a hold placed in CCRLS libraries as there is longer time in placing the hold, as well as travel time for the item to get to us. This is a free service to patrons!

RE: Monthly Code Enforcement (April 2024)

The following is the Code Enforcement Tracking Sheet as of April 11, 2024.
I have three reports, one showing open cases, closed cases and traffic/towing for the month of April.

I stepped into the position of Code Enforcement on March 18, 2024. Since that time I confirmed status on all previous open complaints as well as the new complaints that needed to be addressed. All inspections are current and up to date.

There is a Clean-up day scheduled for 04/20/2024, hopefully we will see some additional movement in violations clearing.

Code Cases Open

We currently have 49 active Code Cases that are being worked on for compliance.

Land Use and Building Applications Report from Liam Bean

This report covers planning activities from 03/04/24 to 04/10/24:

LA-24-001: Beekeeping ordinance. Laura gave the staff report during the March Planning Commission meeting. A public hearing followed. Staff were instructed to clarify the minimum lot size requirements and to clarify the maximum number of beehives. Planning staff made these changes to the proposed language and Tyler and Heidi presented the adjusted proposed code amendments to City Council During the March City Council meeting. During this meeting the council directed staff (likely planning staff) to investigate the potential of Sheridan becoming a "Bee City" **This item will not appear in future reports.**

MHP-22-001: The previous approval for an 18-unit manufactured home park located on 640 SE Sheridan Road was set to lapse on April, 4th 2022. Staff contacted the applicant who eventually

applied for an extension to the approval on March 27th and the approval has been stayed. The application has been deemed complete. Staff have finalized the notice for the extension and the notice will be sent out shortly.

FDP-24-001: A floodplain development permit was issued for a townhouse dwelling at 441 NE Yamhill St. This townhome was a fire loss, but the adjacent attached townhome was not lost. The approval allowed the new townhome to be built and connected to the surviving structure via an extended breezeway. **This item will not appear in future reports.**

PRE-24-003: A pre-application conference has been scheduled to discuss a 12-lot subdivision on the 800 block of SE Sheridan Road. The developer is interested in affordable housing options, but the subject property is complicated by its irregular “hatchet” shape and its proximity to the floodway.

PRE-24-004: A pre-application conference is being scheduled to discuss a boundary line adjustment between two neighbors (228 SW Jefferson St). The boundary line adjustment is connected to the proposed single-family dwelling discussed in BCA-24-008 but is not impacted by the home’s expected location.

PRE-24-005: A pre-application conference is being scheduled to discuss the possibility of an ADU in the rear yard of 645 NE Sherman Street. The applicant is curious about how the presence of an ADU may impact their ability to partition the land further in the future.

BCA-24-007: This building compliance application was issued for the replacement townhouse dwelling discussed in FDP-24-001. **This item will not appear in future reports.**

BCA-24-008: An application for a new single-family dwelling at 240 SW Jefferson St. The applicant is granting a 5’ deep strip of property to their neighbor, see PRE-24-004. The lot is development constrained due to steep slopes in its interior portions. Public works and planning are meeting with the applicant on site on April 11th to discuss options.

SDR-23-004: Jim has prepared the decision for the BRTEC project and has provided a copy to the applicant’s development team. City staff and the development are discussing the last few “sticky wickets” of the decision, and it should be issued shortly.

11 other building compliance applications have been submitted for mechanical permits, plumbing permits, or solar panel installations, 10 of which have been processed by the planner.

Special Projects:

The MWVCOG has received a grant from the Department of Land Conservation and Development (DLCD) to facilitate required code updates relating to manufactured dwellings, duplex dwellings, and residences in commercial zones. These code updates are associated with City compliance to requirements of House Bills 2001, 3395, and 4064. Planning staff have begun the process of identifying sections of the code which are either non-compliant with current or future state requirements, or which could be improved to facilitate needed housing development. Planning staff were directed to review the proposed public works design standards (prepared by Civil West) for compliance with Title 16 of the Sheridan Municipal Code (Development Code). Staff found no requirements that outright contradicted the requirements of the Development Code. Staff are working to make all City requirements uniform.

Planning staff, in coordination with economic development staff, are investigating transportation planning funding sources. Staff are in the preliminary stages of writing a grant application for a transportation growth management (TGM) grant. These grants are intended to address issues that crossover between land use planning and transportation. Staff are hoping to earn a grant that will allow the city to update its over two decades old transportation systems plan (TSP). A modern TSP will help the City be more competitive for other grant funding sources and will help guide Public Works decision making.

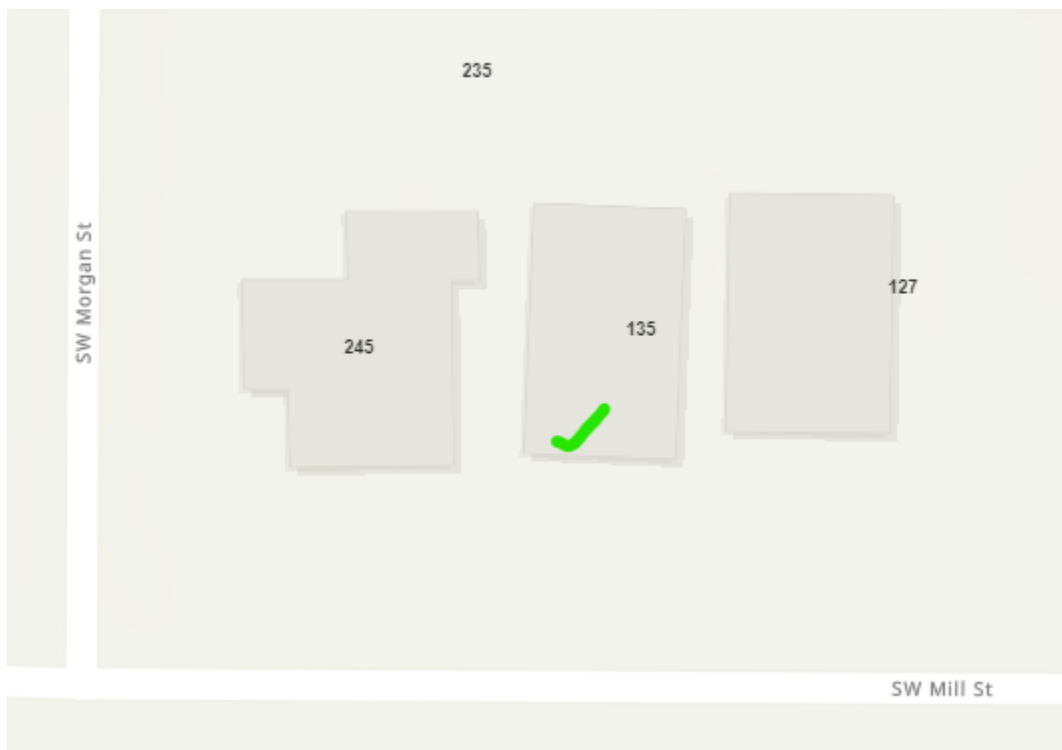

Public Meetings: The April Planning Commission meeting was cancelled.

RE: Mobile Shower Unit

Public Works did a site visit and came up with the following costs. These costs are rough estimates. PW Staff can do most of the labor.

- Sewer: \$5,000 (includes establishing new connection into the sewer main)
- Water: \$1,500
- Plumbing permits will be required for water and sewer
- Natural gas: \$0 (working to confirm this)
- Electricity: PGE needs researched
- Back Fence: \$5,000
- Gravel Pad: \$2,000

Total \$13,500 (plus permits and possible PGE costs)

RE: Parks and Recreation Committee Member Appointments

Recently, a Parks and Recreation Committee Voting Member had to resign. The Committee decided to request that the City Council consider filling the vacancy, as opposed to reducing the size of the Committee. The Committee also has a Non-voting Member vacancy as well.

Chapter 2.24.030 Terms of Office states:

“At the first meeting of the committee, the six appointed members shall choose their terms of office by consensus or by lot as follows: two for one year; two for two years; and two for three years. The committee shall select a chairperson.

Immediately thereafter the members shall notify the mayor and the council in writing of such allotment. Their successors shall hold office for their term; and any vacancy shall be filled by the mayor, subject to the approval of the council, for the unexpired portion of the term.”

Staff advertised the vacancy in Council Meetings, Planning Commission Meetings, community meetings, on Facebook, on the City website, in the City Newsletter, and in the West Valley Bulletin Board. During the recruitment process, we received two applications for the two positions.

The two applicants are:

- Joseph Harrison
- Bryan Baker

The applicants were invited by email to attend Monday’s Council Meeting. Mayor and Councilors are allowed to ask questions of the applicants that relate to the position. Mayor George will make the appointments.

RE: Appoint Budget Committee Member

State Budget Law requires that we try to fill the community member seats on the Budget Committee. There should be as many Budget Committee Members as there are Council Members; so, the magic number is seven community members + seven Council (including Mayor) for a total of 14 people on the Budget Committee. On March 18, Mayor George appointed Sandra Walker and Richard Cox to the Budget Committee Member, which left one vacant position. Community Budget Committee Members may be reappointed for additional terms, at the discretion of the Mayor and the Council.

We received an application from Gwen Fink, who served on the Budget Committee last year. Ms. Fink did not realize that her term was shorter, expiring on 12/31/2023, and she expressed willingness to continue serving on the Budget Committee. We have invited the applicant to attend the Council Meeting for you to ask questions. Feel free to ask her questions, but please make sure that all questions are related to the position – Why did you apply? Will you be committed to serving a three-year term? Etc.

Mayor George will appoint the candidate.
