

**SHERIDAN OREGON
MERCURY TMDL**

AGENDA

What is a TMDL?

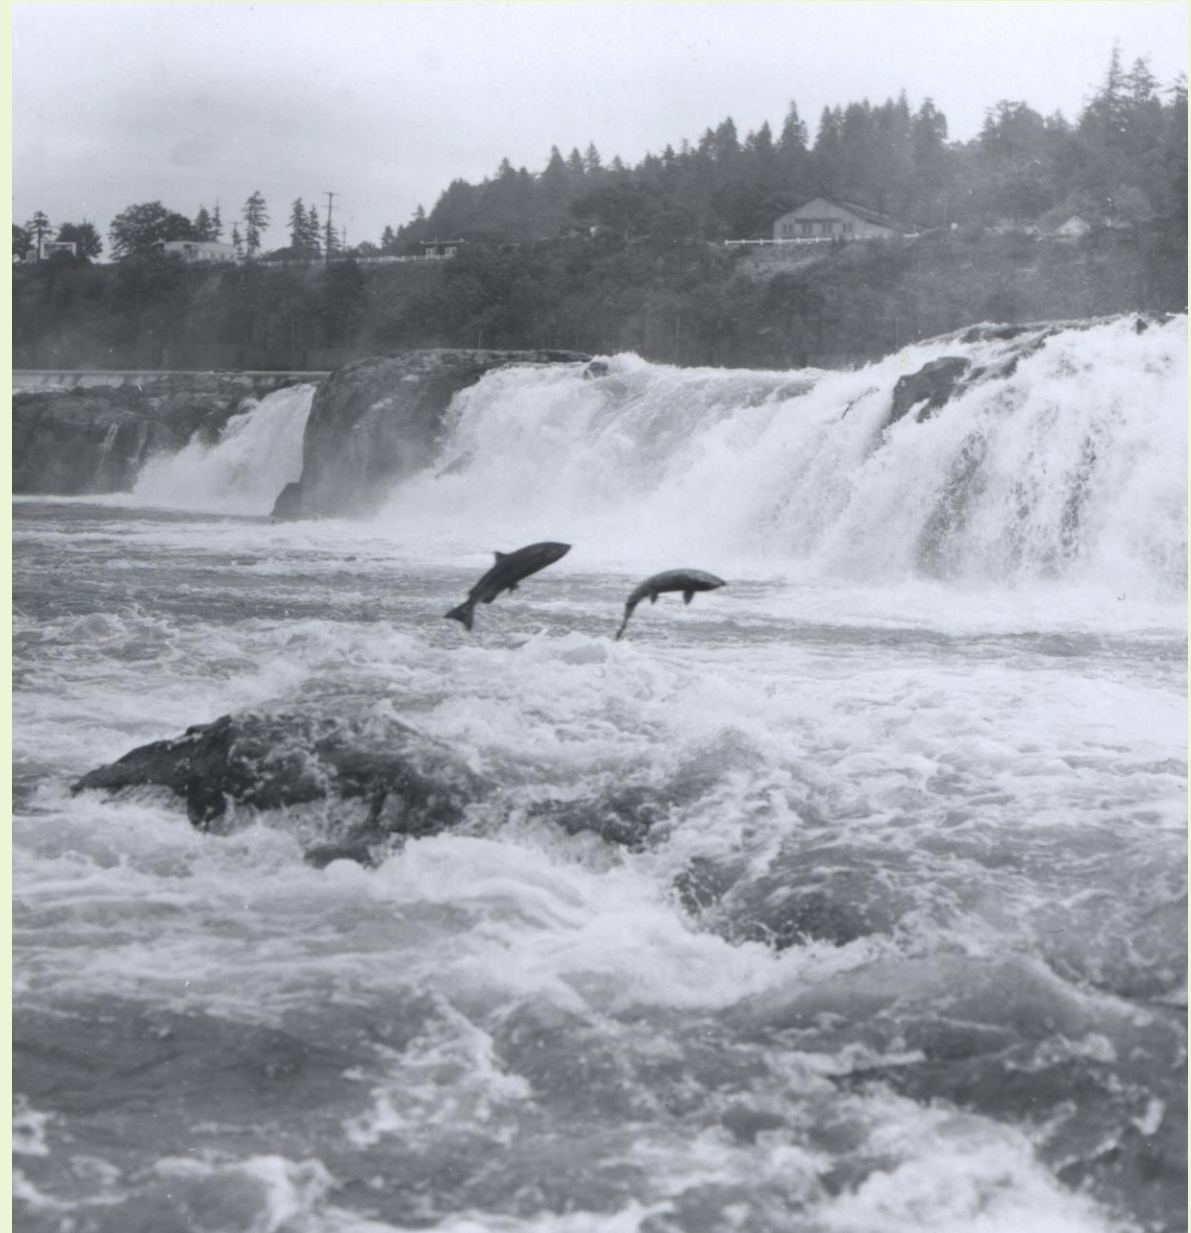

Why do we have a TMDL?

What have we done thus far?

What will we do?

**WHAT IS A TMDL –
TOTAL MAXIMUM
DAILY LOAD**

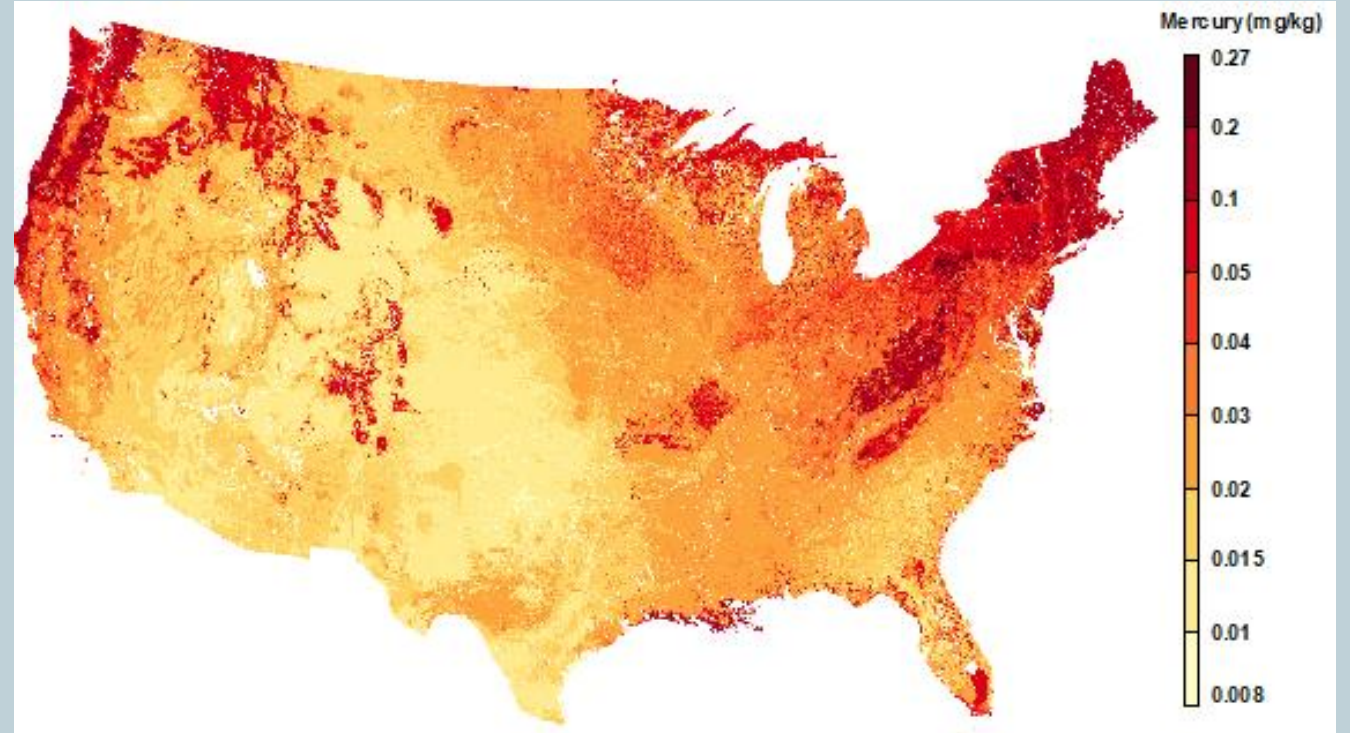

MERCURY IN SOILS

The soil in Sheridan has elevated Mercury levels.

Sources:

- Coal burning in China
- Local Geology

**WHAT THE CITY
HAS DONE TO
ADDRESS
MERCURY
EROSION**

TMDL Implementation Plan Developed in
2022

- Good housekeeping – Street Sweeping, Catch Basin Cleaning
- Outreach- Mailers, Presentations, Engagement with Contractors
- Enforcement of Municipal Code

WHAT WILL WE DO

Develop plans for Post Construction Runoff by 2030

- We have code requiring erosion control
- We are effective stewards:
 - We are vigilant
 - We react with urgency
 - We control erosion on City properties
 - We maintain vegetated barriers at the river and streamside
